The DESCARTES Teacher Scholars Program is a program for high school math teachers to participate in a one-week summer workshop, which includes

- Participation stipend ($2,000)
- First-hand experience with computational tools for modeling complex systems and large data set analysis
- Access to computational training in Matlab
- Insights into career opportunities for students in data science

To apply, go to: http://appliedmath.ucmerced.edu/descartes

Deadline: May 1, 2015
