# ROGELIO E. GARCIA

I competed in last year's UCM SIAM Applied Math Challenge and I am currently training for an upcoming research project in image processing. Some classes I found challenging, but interesting were Numerical Linear Algebra, Linear Analysis, and Probability and Statistics.

My career goal is to work in tech, specializing in data science or image processing.

About Me

- I am from Pomona, CA.
- I love futbol. #HalaMadrid #ElTri
- I absolutely love learning about cars.
