

MATH COURSE & MATH PLACEMENT EXAM

DECISION TREE

ACADEMIC ADVISING NOTES

- Students intending majors requiring calculus are required to take the MATH Placement Exam. It is optional for students on the non-calculus track and it is not needed to take MATH 008.
- There is no pathway from MATH 008 directly to a calculus course.
- Students with AP exam credit which provides a course exemption, either MATH 005, MATH 011/022 or MATH012/022, are placed into the next level MATH course if required by the intended major.
- MATH 008 cannot be taken for credit after passing another MATH course (MATH 005, 011, 021, etc.) or their equivalents.
- Non-calculus students can bypass MATH 008 and take PSY 010 with score of 23 on the MATH Placement Exam or score of 3 on AP Calculus AB or BC **and** PSY 001 or COGS 001 or NEUR 001. See PSY 010 course description.
- SOE and SNS majors requiring MATH 024 should complete the course by the end of the 2nd year.

Effective Fall 2026
